

Aluminium casting round Bar and Aluminium slab

Wanjia is a leading manufacturer for Aluminium casting bars and Aluminium slab with 400,000mts capacity annually, equipped with advanced 12 melting and casting production lines and 18 Brazing Aluminium Alloy composite material, after years of melting and holding furnance with capacity from 35mts to 100mts.

Currently, we produce and offer a full range of Aluminium round bars as well as aluminium glat ingots(slabs).including different series of aluminium, various specification and temper,which are widely used in

China main aluminium producers such as SAA.Alnan, chinalco ruimin, nanping aluminium etc.

Wrought Aluminium and Aluminium Alloy slab specification

products	specification				
Alloy	AA1050/1060 /1070/1100	AA3003/3004 AA3005/3105	4343/4045 4047/4204	AA5005/5052 5754/5083	AA6061/6062 AA6063
temper	o				
Thickness	260 - 520mm				
width	960 - 1700mm				
length	6000mm				
Weight per slab	Max.13000kgs				

Wrought Aluminium and aluminium Alloy round Bar size

Aluminium products	
Aluminium Alloy	6063,6061,6005
Temper	o
Diameter(mm)	9,100,120,127,152,178,203mm
length	-
Applied standard	GB/T3190 OR Technical agreements
